

BLOOD GLUCOSE (BG) CURVE WORKSHEET

Date: _____

Owner Name: _____

Pet Name: _____

****NEVER** make insulin adjustments
without first consulting with your
veterinarian ******

INSTRUCTIONS:

1. Take a blood glucose measurement **BEFORE** feeding your pet and record the value and time in the columns to the right.

2. Feed your pet. Tell us the type and amount of food given:

Type of Food: _____

Amount of Food: _____

Morning Meal: _____ **AM** Evening Meal: _____ **PM**

Appetite: ☐ Excellent ☐ Good ☐ Fair ☐ Poor

Water Consumption: ☐ Stable ☐ Increased ☐ Decreased

3. Administer insulin as directed and document below:

Name of Insulin: _____

Amount: ____ unit(s) at _____ **AM** ____ unit(s) at _____ **PM**

4. Obtain blood glucose readings throughout the course of the day, filling in both the time you attain the reading as well as the glucose measurement in the columns to the right.

*** New Diabetics:** If this is your pet's first glucose curve,
please obtain a reading **every hour for a total of 8 hours**

*** Established Diabetics:** Obtain a reading at **4, 5, and 6 hours**
after morning insulin dose, or as directed by a doctor

5. Document any activity your pet has throughout the day (i.e. zoomies, playtime, walks) and note the **time(s)** and **length** below:

TIME	BG READING
Pre-Breakfast	

Additional Notes:

6. Document **ANY** treats, snacks, or food given outside of your pet's breakfast/dinner and note the **time, what was given, and how much:**
